Original: a minor third higher

This motet was written by Tye for one of the verses of his own metrical version of the first 14 chapters of the Acts of the Apostles, published in 1553. It was not until the 19th century that other words were adapted to the music in place of Tye's quaint version. The Editor has here restored Tye's text of the music and re-adapted two of the 19th century versions of words in strict accordance with Tye's underlying of his own words. There are no repeats in the original and these may be ignored at will.
